INTERNATIONAL OLYMPIAD ACADEMY

Our education system has, for long, focused only on the core concepts that science and mathematics can offer. This has spurred the need for an external platform that provides the opportunity to apply these concepts and build a deep understanding of the core concepts learned in school. Olympiads are competitive examinations conducted nationally and internationally and have proved to be such platforms that allow students to test their mettle in different subjects.

These exams focus on the application of concepts learned in the classroom. The exams are designed in such a way that the students are forced to apply multiple concepts simultaneously to arrive at the answers. This not only sharpens their skill, it also builds in them the deep appreciation of the subject.

We, at International Olympiad Academy, recognize the need for such periodic tests that pushes the students out of their comfort zone and helps them build them their logical reasoning and analytical abilities. Our Olympiads, picks students from all across the globe to compete against their peer groups. We aim to foster a healthy environment which is competitive yet enriching.

We also provide mentoring programs that guide the students throughout the process of preparing for such exams. Our mentors are highly qualified professionals who have been a part of the education system for over twenty years. Their extensive experience allows them to assess the potential of students quickly and customize the program to mentor students with different capabilities in a manner that suits each student exclusively. Currently in collaboration with HIPPO International Language Competition, International Science Olympiad and Mathematical Kangaroo (also known as International Mathematical Kangaroo, or Kangourou sans frontières in French), IOA aims to identify young geniuses and bring out the best in them.

MATHEMATICAL KANGAROO

Mathematical Kangaroo (also known as International Mathematical Kangaroo, or Kangourou sans frontieres in French) is an international mathematical competition held across 92 countries in the world. There are twelve levels of participation, ranging from grade 1 to grade 12. The key competence tested by Mathematical Kangaroo is not just pure knowledge of formulas, but the logical combination of concepts.

The Competition was established in 1991 by Andre Deledicq, a Professor of Mathematics at the University of Paris, and Jean-Pierre Boudine, Professor of Mathematics at Marseille. The idea comes from the Australian Mathematics Competition, initiated in 1978 by Peter O'Halloran. It is based on multiple-choice questions (MCQs), which were rarely used in France at that time. For this competition, Jean-Pierre Boudine and Andre Deledicq were awarded the 1994 d'Alembert prize of the Mathematical Society of France.

The competition has now spread around the world Students from Sweden first took part in 1999. By 2011, 860,000 students from 9,000 schools took part in Germany, having grown rapidly from 549,000 in 2007. In 2014, the competition was hosted in Latin America. In 2017, the Bulgarian association held a week-long Kangaroo summer camp In Canada, math contest clubs for elementary school children teach “questions typical of the Math Kangaroo contest”, starting with those with a visual component and helping to develop logic and spatial reasoning. Students in Pakistan took part for the first time in 2005, the numbers increasing each year since. In 2009, the Pittsburgh Post-Gazette noted that the competition was very popular in Europe and was “finding its way into the United States”. Denmark first participated in 2015. India participated for the first time in 2019 under the banner of International Olympiad Academy.

CATEGORIES

In India Math Kangaroo Contest, students compete in 12 categories. Students of Grade 1 and Grade 2 will take the same test paper Pre-Ecolier but will be ranked separately. Paper taken by grade 1 students is being named as Pre-Ecolier-1 whereas paper taken by students of grade 2 is being named as Pre-Ecolier-2. Same applies for Ecolier-1 & 2 (Grade 3,4); Benjamin-1 & 2 (Grade 5,6); Cadet- 1& 2 (Grade 7,8); Junior-1 & 2 (Grade 9, 10) and Students 1& 2 (Grade 11, 12).

EXAM FORMAT

The competition is a multiple-choice test of 90 minutes. Students registering through their school will take pen and paper-based test whereas students registering at individual level might be offered the online mode of test. The Contest will be held at the student's own school (or at Open center for Individual Participants), to be administered by the assigned contact person.

The paper contains 30 questions (except for Pre Ecolier and Ecolier papers, which has 24 questions) with 5 choices to each problem. The maximum score is 96 points for students up to 4th grade, and 120 points for other students. 1 point will be deducted for each incorrect answer, and no penalty for skipping a question.

Each participant will receive an answer sheet (OMR Sheet) to record their answer, as well as blank sheets for calculation. All used and unused sheets must be returned to the invigilator or proctor at the end of the contest. Students can only bring a pencil or pen, eraser and geometry tools to the Contest. Student will not be allowed to use a calculator during the Contest.

SCORING SYSTEM

Pre-Ecolier and Ecolier (Grade- 1 & 4): The test for Pre - Ecolier 1 & 2 and Ecolier - 1 & 2 is of 90 minutes duration and contains 24 questions. These are grouped equally under three levels of increasing difficulty. 1 mark will be deducted for each incorrect answer and no penalty for skipping a question. As per the level of difficulties following points are awarded:
Easy: 3 points for each correct answer. **Medium:** 4 points for each correct answer. **Hard:** 5 points for each correct answer. **Maximum Score:** 96 points.

Benjamin, Cadet, Junior and Student (Grade 5 to 12): The test for Benjamin – 1 & 2 (Grade - 5 & 6), Cadet- 1 & 2 (Grade - 7 & 8), Junior -1 & 2 (Grade - 9 & 10), and Student (Grade 11 & 12) is of 90 minutes duration and contains 30 questions. These are grouped equally under three levels of increasing difficulty. 1 mark will be deducted for each incorrect answer and no penalty for skipping a question. As per the level of difficulties following points are awarded:
Easy: 3 points for each correct answer. **Medium:** 4 points for each correct answer. **Hard:** 5 points for each correct answer. **Maximum Score:** 120 points.

MATHEMATICAL KANGAROO COMPETITION - 2020-21
Ready Reckoner

Eligibility	All Indian students form grades 1 to 12 are eligible.
Application Process	The schools interested in applying for Mathematical Kangaroo Competition can apply through both offline and online mode. For registrations, please visit www.mathkangaroo.in / www.internationalolympiadacaemy.com
Registration Fee	Rs. 300 + GST/- per student for individual and institutional (school) registration.
Date of Examination	17th April 2021
Last Date of Registration	1st April 2021
Result Date	15th May, 2021
Practice Material	Sample papers are given free of cost on registration. Students can buy e-books from our website or printed copy from their school.
Merit Scholarships & Summer Camp	Perfect scorer in final rounds of each grade to get Year Long Cash Scholarship of Rs. 1000/- per month. Perfect scorer of each grade to get a chance to participate in International camps at subsidized cost.
Medals and Merit Certificates	Top scoring students at each level of participation will be awarded with gold, silver, bronze medals and merit certificates. Others will get the certificate of participation.

HIPPO ENGLISH LANGUAGE OLYMPIAD

ENGLISH WITHOUT BORDERS

Hippo **"English without Borders"** Competition is an international competition which promotes English language challenges students around the globe to compete in English language knowledge, and improves the co-operation between teachers.

The competition encourages the development of a shared sense of identity, integration and serves as a role model for young for young people living together as one community.

The main goal is to create and nourish friendly relations international understanding and a spirit of sporting competitiveness between young people interested in English language from all around the world.

The competition is conducted in three rounds: preliminary round, semi-final round and final round.

The preliminary round of competition is hosted by the participating schools enrolling group of candidates from their school.

Hippo semi-finals are held in bigger cities in each of the participating areas (zones) and the venues will be based on the location of the semi-finalists.

The final round will be held in Lido di Jesolo (Venezia), Italy. Finalists as well as a school representatives will be invited to the final round of the competition.

HIPPO S2	Students born in 2002 & younger	CEFR C1	CEFR C2

EXAM FORMAT

The competition is being run in three rounds: preliminary round, semi-final round and final round.

The preliminary round of competition is hosted by the participating schools enrolling a group of candidates from their school. Hippo semi-finals are held in bigger cities in each of the participating areas (zones) and the venues will be based on the location of the semi-finalists. The final round will be held in Lido di Jesolo (Venezia), Italy.

Preliminary Round: The tests for the preliminary round of the competition will consist of three parts: a test of reading comprehension (multiple choice questions), a test of listening comprehension and a Use of English

test. The maximum allowed time per part is shown in the table below. The tests are the same for all the participants of a category.

Semi-final Round: After the preliminary round tests have been marked, the top 10% of participating students from each participating zone will be invited to the semi-final round. The network of semi-final venues will be based on the location of the semi-finalists. The exam level for the semi-final round will be one CEFR level higher than the one in the preliminary round.

Final Round: In the final round of the competition, the candidates will be taking a **Gatehouse Awards** exam, all 4 skills included. The test samples / past papers are available on www.hippo-competition.org. The exam level for the final round will be one CEFR level higher than the one in the preliminary round that is the same as the semi-final round test.

WHY PARTICIPATE?

- All candidates receive a certificate of participation.
- Registered schools and school coordinators will receive a Certificate of Appreciation.
- Unique International English Language Competition open to all the students around the world.
- All finalists and accompanying teachers get two-day half-board accommodation FREE OF CHARGE
- All successful finalists will receive a Gatehouse Awards certificate.
- Hippo 5 winner will receive a 15-day stay at the University of Missouri.
- Winners of each category will receive a Mizzou K-12 Online High School course.

SCORING SYSTEM OF PRELIMINARY ROUND

Preliminary Round: There is only one correct answer to every question. There are no negative marks. Ranking is based on the average number of marks achieved on all three tests.

HIPPO ENGLISH OLYMPIAD - 2020-21
Ready Reckoner

Eligibility	Students born in 2001 and younger (from grade 2 to 12) are eligible.
Application Process	The schools interested in applying for Hippo English Language Olympiad can apply through both offline and online mode. For registrations, please visit www.internationalolympiadacademy.com.
Registration Fee	Rs. 300 + GST/- per student for individual and institutional (school) registration (only for Preliminary Round).
Preliminary Round Date	1-2 April, 2021
Semi Final Round Date	14-15 May, 2021
Final Round	The final round will be held in Ledo di Jesolo (Venezila), Italy.
Last Date of Registration	15th March 2021
Practice Material	Sample papers are given free of cost on registration. Students can buy e-books from our website or printed copy from their school.
Merit Scholarships	Qualifiers of final round will be given a year long scholarships of Rs. 1000/- per month.
Medals and Merit Certificates	All preliminary round and semi final round candidates will receive a certificate of participation. All candidates who pass the final round tests (score 50% minimum) will be awarded an internationally recognized Gatehouse Awards certificates.

INTERNATIONAL SCIENCE OLYMPIAD

Since the advent of science humans have striven hard to uncover every mystery that shrouds this universe. With technological advancements leaping and bounding every moment we must pause and question ourselves: what is our contribution to it? Are we providing our upcoming generation with the means to be the next great explorer or the next great scientist?

International Science Olympiad aims to specifically achieve this. The Science Olympiad conducted by IOA aims to recognize the raw talent within students of formative age. International Science Olympiad provides the students to test their mettle against the very best at International Level.

The exam aims to test the students not only on their theoretical knowledge of the subject but their applications as well. The main aim of the exam is to test the scientific temperament of each student as they tackle problems of increasing difficulty that challenges their knowledge at every step and forces them to think beyond the textbook knowledge. Each question is designed to test the inherent knowledge of each student.

The students qualifying the round would all be eligible to participate in a study tour abroad where they will be exposed to the international scientific community. Such an opportunity at a formative age will enforce the scientific reasoning ability within each student. It will allow them to question everything on each step and enhance their understanding of the underlying concepts that govern our universe.

CATEGORIES

In International Science Olympiad, students compete in 11 categories from grade 1 to grade 11.

EXAM FORMAT

The exam will be a multiple-choice test of 75 minutes. Students registering through their school will take pen and paper-based test whereas students registering at individual level might be offered the online mode of test. The Contest will be held at the student's own school (or at Open center for Individual Participants), to be administered by the assigned contact person.

SCORING SYSTEM

Grade 1 to 4: The competition of preliminary round contains 24 questions. These are grouped equally under two levels of increasing difficulty. As per the level of difficulties following points are awarded- **Average:** 3 points for each correct answer. **Hard:** 4 points for each correct answer. **Maximum Score:** 84 points. 1 point will be deducted for each incorrect answer, and no penalty for skipping a question.

Grade 5 to 11: The competition of preliminary round contains 30 questions. These are grouped equally under two levels of increasing difficulty. As per the level of difficulties following points are awarded-**Average:** 3 points for each correct answer. **Hard:** 4 points for each correct answer. **Maximum Score:** 105 points. 1 point will be deducted for each incorrect answer, and no penalty for skipping a question.

MEMBERS OF ADVISORY PANEL

Daniele Piacenti

Daniele Piacenti is the Founder and President of HIPPO English Language Olympiad (Italy). He is an experienced International Market Manager with a demonstrated history of working in the ESOL Education Management Industry. He is skilled in ESOL Networking and Team Building. He worked as a coordinator of English Language Kangourou Competition (2008-2012). He is associated with Gatehouse Awards Limited and in past have worked as aPearson LCCI Distributor for Italy & Balkans (2002-2017).

Snezana Mitrovic

Snezana Mitrovic, Gatehouse Awards Italy Academic Manager and one of the Hippo Olympiad founders, has been working in the area of assessment for 12 years, helping teachers prepare students for different types of exams, designing and running refresher courses, seminars and workshops for teachers and carrying out a variety of projects. Her main areas of interest are the methodology of TEFL and assessment. Her wish to reconcile the commercial and academic in assessment has led her to complete a PhD degree program in assessment at the Sapienza University of Rome, where she now teaches English. Her main interests have remained the methodology of TEFL and assessment of English as a foreign language, in particular performance-based testing.

Mr. P K Ganesh Ayyar

Mr. P K Ganesh Ayyar is a practising consultant in Finance and Income Tax with a passion for academics and career counselling for young students. In addition to his professional work, he devotes time to guide and mentor students to face challenges in preparing them to perform in a rapidly changing world. He completed his B. Tech (Hons) in Agricultural Engineering from IIT, Kharagpur. PGDM in Marketing and Finance from IIM, Calcutta. CFP from Financial Planning Standards Board affiliated to FPSB, Denver, USA. He has twenty-five years in Marketing and Administration (1973 – 1998) in the Corporate Sector in India Inc. companies like HMT, TTK and Lakshmi Group in managerial positions with International corporate tie-ups. Twenty-two years as a Financial and Income Tax consultant, specializing in personal finance for individuals and HUFs, and MSME including startups. He is Lecturer/Professor in Management Institutions like The Northcap University, Gurgaon, Accurate Business School, Greater Noida.This includes regular guest lectures in business schools including IIM Bangalore. He is member, Board of Studies, IMT Gurgaon (2010-2011).

K Vaidyanathan

Mr. K.Vaidyanathanhas 30 years of corporate experience in middle level and senior level in marketing with different industrial houses which include Mandeliasto name few, in products such as Database Reports of NTIS of US Department of Commerce, Hand Tools, Paper, Building Materials, Household Plastics and Plastic Chairs for both local and export market. He is a commerce graduate from Delhi University, PG Diploma in Journalism from Bhartiya Vidya Bhavan, New Delhi, PG Diploma in Business Management from YMCA Institute of Management, New Delhi. With all the accumulated industry experience detoured to academics by teaching management to MBA students of Tilak Maharashtra University, Pune for their study Centre in New Delhi for over 5 years with vigor and enthusiasm while sharing lifetime experiences with students on modern day lifestyles by shaping and grooming. He is associated with a leading B School, Great Lakes Institute of Management School, Chennai as part of their admission panel since 2004 for both one and two-year programme.

Ms. Kannamma Srinivasan

Ms. Kannamma Srinivasan is a member of the senior management team of Development Alternatives, managed the Nationwide CLEAN-India network and coordinating the Earth Charter programme and ZERI(Zero Emissions Research Initiatives) programme in schools, involving and influencing the community through a network of students, teachers and NGOs and initiating solutions involving local governments Authored papers, Teachers training manuals and books on Mathematics, Science, Astronomy and Environment. She is Senior Advisor with Development Alternatives, New Delhi and Member- Commission on Education and Communication, IUCN (The World Conservation Union).

MEMBERS OF ADVISORY PANEL

Captain K V Subba Rao

Captain K V Subba Rao who is a M.Sc., PGDHRM, M Phil (MBA) and Gold Medalist in port development and management worked as Accredited Management Teacher. He was Commissioned, Established and was Head of Edexcel (UK) Centre 93004 HND (Higher National Diploma) Nautical sciences and Marine Engineering. His professional affiliations include H.O.D. Maritime Studies at AMET University, teaching foreign naval cadets from 6 countries personality development and communication skills, teaching HRA & Organizational Behavior at Tilak Maharastra University, teaching Operation Management at Amity University. He was awarded a CPD certificate by IMarEST for Continuous Professional Development Presented a paper at IMO. He attended "Train the trainer for IELTS examination" at British Council India. He is designing assessment documents for maritime subjects' examinations under SQA.

Dhruva Trivedy

Having born just after independence, imbibed many nationalistic values, which, over the years culminated into concern for humanity and people issues across the globe. These values gradually reinforced themselves, with the exposure to higher education, cosmopolitanism and opening of the Indian economy.
Formal elementary learning was acquired with the help of the Irish Christian Brothers from an eminent missionary school (St. Columba's High School) in New Delhi, followed by graduation with honors and a university rank in Sociology from the University of Delhi and a post-graduation in Personnel Management (older perspective of HR) from a premier institute (Tata Institute of Social Sciences) at Mumbai, imparting specialized training in human behavior and issues.

Dr. Ashok Vyas

Dr Ashok Vyas has done Phd in Mass Communication and Media from Netherlands University. He worked as a teacher of English and as a Principal in schools for 30 years. He has also worked as oral examiner for speaking test in Cambridge University (UK).
He is awarded for "Excellence in Education "(An International Award by IAEWP- UN). He has been working as a secretary (Gujarat)- International Association of Education for the World Peace. He is the master trainer of police officials in Vibrant Gujarat in the English Communication. He has also directed 15 episodes of Virtual Classroom, a project of GCERT on English Language. He is the pioneer in introducing the English Diploma Courses of London Chamber of Commerce in Gujarat.

Dr. Y. S. Parmar

Dr. Y. S. Parmar, who is a Ph.D. in Physics from IIT Kanpur (IIT-JEEE AIR-474, 1983) is an ingenious physics teacher having 25+ years of teaching physics to IITJEE aspirants. He is the chief mentor at SCHOLARS- IITJEE. His professional affiliations include reputed organizations such as FIEE Classes, Career Launcher, Narayana IIT Academy, Everonn Toppers Tutorial and IIT- Study Circle.

Mr. S.A.S. Kirmani

Mr. SAS Kirmani (Chairman) is a well-known personality across the various spectrum of society for his various social activities. After completing his engineering degree from HBTI, Kanpur, he shifted to Delhi, where he took-up job from engineering field and along with the job he continued with social commitments in various shades. He is the Vice-President of "Abd-Ur-Raheem Khan-E-Khana Society" to preserve and promote 'Secular and Ganga-Jamuni Culture' a distinguished feature of Indian Society. He had been "Secretary, Staff Association of Delhi Public School", RK Puram, New Delhi and ensured that issues of staff such as teachers and other employees reached to management in right perspective. He participated as a 'Member of Draft Formulation Committee' to Computer Literacy Education Program jointly sponsored by NCERT and Ministry of Education.
